

Partner System Rental Inventory Services

Partner System Rental - is a program developed by WIS International to assist businesses like yours with their stock counts.

Partner System Rental combines the benefit of utilising your employees to perform counts with WIS International equipment and an experienced, independent 3rd party WIS Inventory Manager to lead the process.

The WIS Inventory manager will ensure your store employees receive the training, assistance and all the technical support they need to conduct an accurate and efficient stock count.

Benefits for your business

Employee Supervision and Motivation - Our managers know how to motivate your employees to meet agreed expectations and provide feedback to counters on their performance (count per hour and accuracy).

Equipment Transportation - We'll bring the requested number of counting terminals, along with all supplies needed, to every stock count.

Equipment Reliability - WIS Inventory Managers ensure that the data collection terminals are charged and ready for your count.

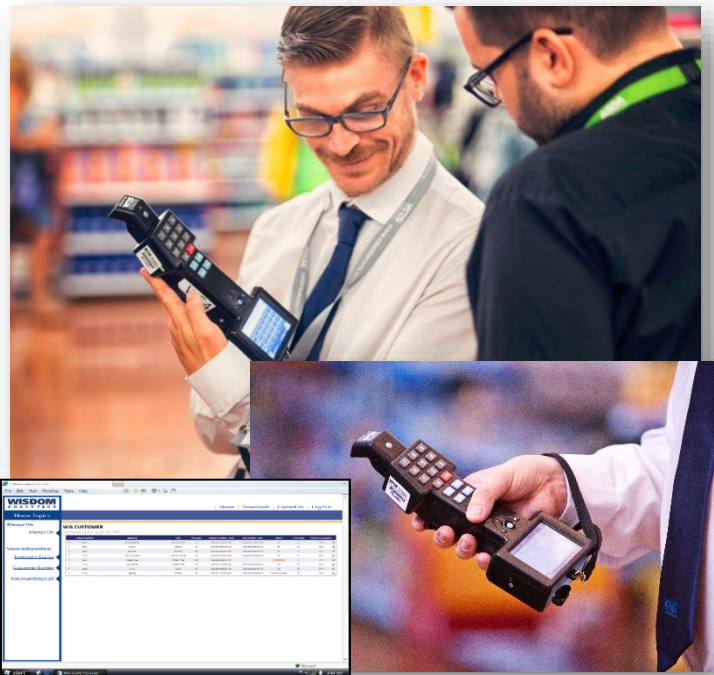

Inventory Experience - Performing more than 200,000 counts a year gives WIS International a wealth of experience that you can apply to your next stock count.

Project Management Expertise - Physical Inventory takes planning to succeed. With project management expertise that you can rely on, we'll take care of all the details to ensure flawless execution of your inventory. Account instructions are developed for each client, so that your specific needs are met.

Remote - We can also offer a complete remote managed solution without a WIS manager on site yet online and providing remote support for your count.

Standardised Procedures - All counts will follow a standardised flow plan and your employees will be trained to use the rental equipment efficiently and smoothly.

Technology - Technology is an important component of an accurate stock count. WIS International routinely creates customised proprietary software programs to meet our clients' needs.
