

Warehouse Inventory Services

WIS International provides inventory services to help count the items in your warehouse or distribution centre without extended and costly facility closures.

With more than 60 years of experience in the inventory business, and a staff of 14,000 employees, WIS International can meet your warehouse inventory needs. Leverage our skilled workforce to perform your next inventory.

You'll gain a better understanding of any shrinkage issues so that you can proactively manage your loss prevention processes.

Benefits for your business

Accuracy – You'll benefit from our attention to detail, audit trail and customised process. Our WISard™ data collection terminal has built-in alerts to assist WIS International auditors in providing accurate results and helps to eliminate common count errors.

Cost savings – You'll save valuable down-time by using WIS International to count during off-hours, such as on a Friday night through Sunday.

Independent Verification – Third party service providers act as an independent check against your stated inventory value.

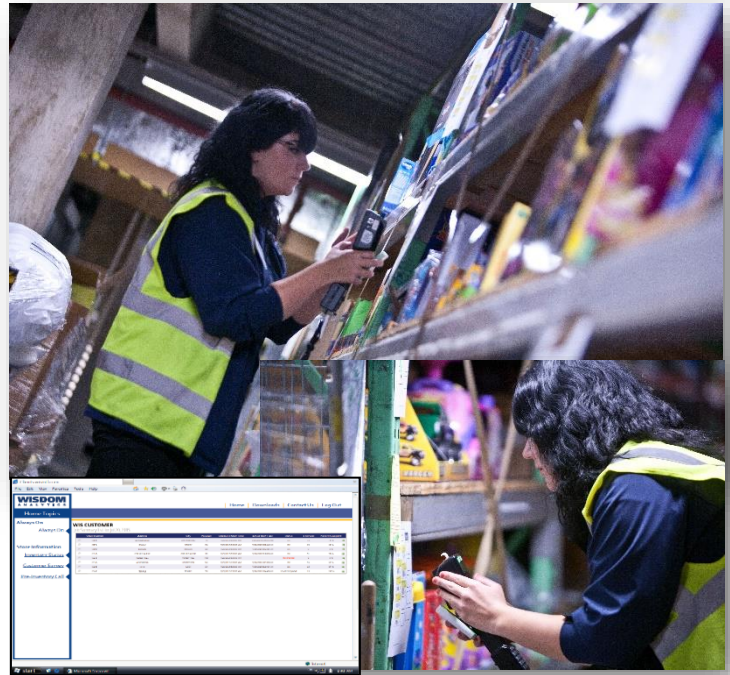

Trained Workforce – Physical inventory services are WIS International's speciality. Trained employees (not agency) and managers perform inventory counts on a daily basis, and are skilled in the techniques specific to warehouse and distribution centre inventories.

Technology – Technology is an important component of an accurate stock count. WIS International routinely creates customised proprietary software programs to meet our clients' needs.

The use of R.F. technology provides real time insight into an inventory's progress. With R.F. technology, it's possible to:

- View real time percentage of inventory completion.
- Improve communication between crew managers and staff personnel.
- Obtain continuous equipment status updates.
- Improve rechecking / readjustment capabilities.
- Gain insight into shelf level data.

Project Management Expertise – Physical Inventory takes planning to succeed. With project management expertise that you can rely on, we'll take care of all the details to ensure flawless execution of your inventory. Account instructions are developed for each client, so that your specific needs are met.

What are people saying

"Very efficient, informative and very positive. Great morale and great team spirit"

"Went very well. xxxx and his team were very professional a pleasure to work with. The audit was one of the smoothest I have done"

"The stock take was very professional, very efficient and well timed and very well managed. Good team to have in."

"Great manager and team very flexible to our requests and excellent communication. Thank you, we would very much welcome xxxx and his team back here again ."

WIS International

WIS International has been delivering accurate results to many of the biggest names in retailing and manufacturing for more than sixty years. With more than 200,000 physical inventory counts taken every year, WIS International has become one of the industry's largest and most trusted suppliers of Inventory Counting Services worldwide.

In addition, WIS International also provide merchandising services such as new product placement, point-of-sale display services, fixture installations and product recall return services.
