

Data Analytics

WIS International not only provides world class inventory services counting to the items in your store, warehouse or distribution centre, WIS International also provides world class data analytic reporting.

Using the Microsoft cloud data warehouse and for the fourteenth year running the market leading Power BI platform as recognised by Gartner research, coupled with WIS international's vast knowledge of the marketplace, you can be assured of meaningful and insightful reporting.

You'll gain a better understanding of any shrinkage issues so that you can proactively manage your loss prevention processes.

Benefits for your business

Availability – You'll benefit from reporting being available when you want it and where you want it. Reports are available on desktop, tablet and mobile with updates pushed when needed.

Consolidation – Bring all the relevant data you need to manage your business into one place and one report.

Excel Integration – Anyone who's familiar with Microsoft 365 can easily connect Excel queries, data models, and reports to Power BI Dashboards—helping to quickly gather, analyse, publish, and share Excel business data in new ways.

Expect more – don't just accept paper reports or manually created spreadsheets, expect more from your provider. With the expertise of WIS and the Data Cloud take your category management to a new level.

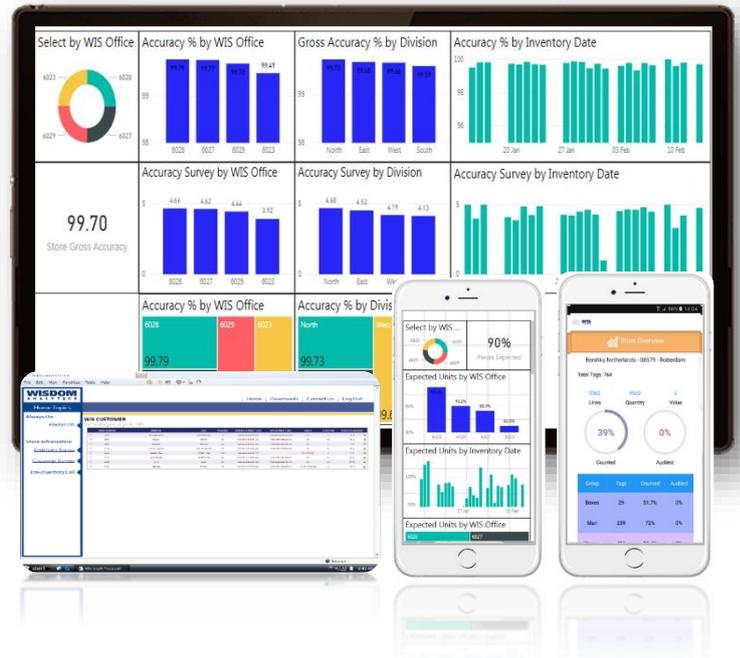

Insights into Action – Get more than just results, develop insights and to do lists that help you to manage your business in real time.

Project Management Expertise – With project management expertise that you can rely on, we'll take care of all the details to ensure flawless execution of the development of your reporting in line with your count requirements.

Technology – Technology is an important component of an accurate stock count. WIS International routinely creates customised proprietary software programs to meet our clients' needs.

Questions – Use the built in AI tools to ask questions about your data and take a deeper and more meaningful view of what is happening in your business.

Project Management Expertise – With project management expertise that you can rely on, we'll take care of all the details to ensure flawless execution of the development of your reporting in line with your count requirements.

What are people saying

Gartner recognizes Microsoft as a Leader for the fourteenth consecutive year in the 2021 Gartner Magic Quadrant for Analytics and Business Intelligence Platforms.

"The ability to see, without waiting for someone to call with an update makes running counts so much easier"

"To have the reports ready when I want them, in a way I want them means I can keep on top of performance"

"The speed of response when looking for bespoke reporting is much appreciated"

WIS International

WIS International has been delivering accurate results to many of the biggest names in retailing and manufacturing for more than sixty years. With more than 200,000 physical inventory counts taken every year, WIS International has become one of the industry's largest and most trusted suppliers of Inventory Counting Services worldwide.

In addition, WIS International also provide merchandising services such as new product placement, point-of-sale display services, fixture installations and product recall return services.
